# BIOGRAPHY

ZIMBABWEAN-BORN MULTIDISCIPLINARY ELECTRONIC MUSIC ARTIST, PRODUCER AND DJ

PA NGU is a Zimbabwean-born multidisciplinary electronic music artist, producer and DJ. His work moves through house and wider electronic music, bringing African musical references, organic instrumentation, deep electronic textures and melody into the same space. He does not build around a single genre; the sound changes with the idea, while the identity stays rooted in rhythm, emotion and detail.

Across more than 15 years in music, PA NGU has built a catalogue of 50+ releases and played 300+ shows. His records have appeared through labels including Cafe De Anatolia REC., Rise Music, Deep In Your Soul, GUNGANO Records, WeAreiDyll Records and Nativemusik, with performances across South Africa, Zimbabwe, Kenya, Nigeria and Angola. The project continues to grow through new collaborations, international shows and a catalogue that is as focused on songwriting and sound design as it is on the dancefloor.

*"I pull from different cultures and different parts of my own story. The goal is not to fit a genre; it is to make the idea feel complete."*

PA NGU

PRODUCER / DJ / CREATIVE

Electronic music shaped by culture, movement and sound design.
